# 1. Our organisation

We are the Environment Agency. We protect and improve the environment. Acting to reduce the impacts of a changing climate on people and wildlife is at the heart of everything we do. We reduce the risks to people, properties and businesses from flooding and coastal erosion. We protect and improve the quality of water, making sure there is enough for people, businesses, agriculture and the environment. Our work helps to ensure people can enjoy the water environment through angling and navigation. We look after land quality, promote sustainable land management and help protect and enhance wildlife habitats. And we work closely with businesses to help them comply with environmental regulations. We can't do this alone. We work with government, local councils, businesses, civil society groups and communities to make our environment a better place for people and wildlife.

Of course, none of this will be possible without the professionalism and dedication of our staff. We are committed to promoting equality and diversity in all we do, and to valuing the diversity of our workforce, customers and communities.

We're committed to helping our people to find new ways of working and to maintain our focus on creating a better place for people and wildlife. For more information on the Environment Agency and what we do, please visit: [www.environment-agency.gov.uk/aboutus](http://www.environment-agency.gov.uk/aboutus)

## 2. Salary and benefits

Join us in this role and you will enjoy the following benefits:

<b>Grade Rate:</b>	£36,389 (pro-rata - if part time or an assignment) Additional £6,000p.a. for Chartered or £3,000p.a. for an Incorporated MEICA engineer registered with the Institution of Engineering and Technology (IET) or the Institution of Mechanical Engineers (IMechE) (pro-rata – if part time)).
<b>Location:</b>	Welwyn Garden City
<b>Hours of work:</b>	37 hours FTE, permanent, part-time/job share available
<b>Leave entitlement:</b>	<p>Your leave allowance in this role will be 27 days or equivalent, depending on working pattern, plus bank holidays. Your allowance will be pro-rata if you work part time or you are on an assignment to a role at a higher grade that attracts an increased entitlement. Your entitlement depends on your grade, your contracted hours, and your length of continuous service.</p> <p>We also offer up to two days paid environmental outcome days each year. These give you the opportunity to take part in community activities with a clear environmental outcome for people and wildlife.</p>
<b>Pension:</b>	We will enrol you into the Environment Agency Pension Fund (EAPF) on commencing employment, if your employment contract is for 3 months or more. The EAPF is part of the Local Government Pension Scheme (LGPS). It is a career average scheme, which means you will build up benefits based on your pay each scheme year rather than your final salary.

## 2. Salary and benefits continued

We will base your pension contributions on your actual pay and you will receive tax and national insurance relief on your contributions. The pension contribution rates currently range between 5.5% to 12.5%. Whilst you are in the scheme we will also pay an employer contribution into your pension pot. We currently pay 19%, so this is a very generous scheme.

### **Work/life balance:**

We support flexible working hours and practices to help you strike a good balance between your work life and your personal life. We will also encourage you to keep developing your skills and professional knowledge throughout your career.

As government restrictions continue to lift, Defra group is exploring future ways of working with flexibility in mind. This means, that subject to business need, successful candidates will be offered the option to combine working at home with working at their contractual Defra group workplace, with occasional travel to other work locations. Further information relevant to this post will be available for candidates invited to interview.

### **Diversity:**

We are fully committed to being an inclusive employer and ensuring equal opportunities. We are keen to make our workforce as diverse as possible, and we hope to attract applications from under-represented groups, including Black, Asian and Minority Ethnic (BAME) people, people with disability, and people with gender diverse identities. We would also welcome applications from candidates from lower socio-economic backgrounds who are looking to take their first steps into the world of work and into learning.

## 2. Salary and benefits continued

### **Relocation:**

If you need to relocate to take up this role, we might be able to offer financial help with this. This will depend on your circumstances, so if it's something you are interested in, please discuss it with us to find out what the options are.

### **Tenancy deposit loan:**

Our Tenancy Deposit Loan scheme assists employees directly employed by the Environment Agency in meeting the costs of a deposit for a privately rented home, which can sometimes act as a barrier to moving.

The scheme gives access to an interest free loan to pay for some or all of a deposit on a privately rented home. The loan can be paid back over a period of up to 12 months, directly from the monthly salary.

## 3. The Role

The Mechanical, Electrical, Instrumentation, Control and Automation (MEICA) Engineer role is vital to the effective and efficient running of our flood risk pumping stations, water control structures and our wider business. You will be joining a MEICA team helping to assure, prioritise, plan and deliver the maintenance or replacement of our crucial assets enabling flood protection to homes, businesses and the environment; which will have an increasingly important role as we face the challenge of global climate change. Following our recent ISO55001 Asset Management accreditation, you will be working closely with external contractors to develop a world class asset management organisation.

The role will be responsible for providing strong technical leadership to assure technical and design standards. You will also be responsible for monitoring the quality and advising on the requirements to meet specialist MEICA technical, safety, legal, environmental and operational requirements, spreading across the geographic areas covering a very diverse range of assets.

You will provide technical instructions to ensure staff across the area team involved with electrical/instrumentation works comply with statutory legislation, British and European standards together with Environment Agency's codes of practices, procedures and related guidance.

### **Experience and Skills**

Ideally you will have the skills listed below

- Comprehensive knowledge of MEICA related statutory legislation, British and European standards.
- Experience in leading or taking a lead role in safety investigations, identifying and disseminating learning to bring about improvements in electrical and behavioural safety.
- Knowledge and experience of Root Cause Analysis, Reliability engineering and process improvement.
- A good understanding of Asset Management and Asset Management computer systems such as computerised maintenance management systems (CMMS).
- Highly motivated self-starter.
- Outcome focussed. You will need to demonstrate you can deliver the required tasks.
- Educated to degree level or equivalent vocational experience.

## 3. The Role continued

- Ability to influence, persuade and bring others with you.
- Technical Leadership.
- CDM 2015 and general health and safety awareness.
- Writing and reviewing technical specifications.

You will be a professionally recognised electrical/instrumentation engineer ideally holding either Chartered or Incorporated status with the IET.

### **The Team**

Joining our friendly and essential MEICA Team you will report to the MEICA Team Leader, acting as technical support on MEICA activity and will participate in our response to flood incidents. You will provide technical support to other team members and be responsible for liaising with a wide range of business partners and leading on asset management administrative actions on behalf of the MEICA Team Leader.

The Mechanical, Electrical, Instrumentation, Control and Automation (MEICA) Electrical ICA Advisor G5 role is vital to the effective, reliable and efficient running of our flood risk pumping stations, water control structures and our wider business. You will be joining a MEICA team helping to improve asset management reliability whilst prioritising, planning and delivering the maintenance or replacement of our crucial assets enabling flood protection to homes, businesses and the environment; which will have an increasingly important role as we face the challenge of global climate change. Following our recent ISO55001 Asset Management accreditation, you will be working closely with external contractors to develop a world class asset management organisation.

The role will be responsible for providing strong technical leadership to assure technical and design standards. It will also be responsible for monitoring the quality and advising on the requirements to meet specialist MEICA technical, safety, legal, environmental and operational requirements, spreading across the geographic areas covering a very diverse range of assets.

We are an employer who offers continuous improvement opportunities to employees such as apprenticeships and job related training; enabling advancement in chosen career paths and improving knowledge to enhance their roles. Work/life balance is important to us as an employer and we offer a great benefits package, an impressive career average pension scheme, 27 days holiday with flexitime working available.

## 3. The Role continued

Role specific license requirements: A full UK driving licence  
Travel across the area and occasionally across the country is required.

Please contact [eanwc@environment-agency.gov.uk](mailto:eanwc@environment-agency.gov.uk) if you would like to discuss the role in more detail or if you have any other queries regarding this vacancy.

In the Environment Agency, our roles are grouped by grade and similar characteristics into one of seven job families. Job families describe the work undertaken in broad terms. This enables us to use generic profiles to broadly describe 80% of the key accountabilities, skills and experience for each job family at each grade.

The role of Electrical/Instrumentation ICA Advisor (MEICA) fits into our Asset Management job family at grade 5.

## 4. Further Information

The Environment Agency values a diverse workforce and welcomes applications from all sections of the community who wish to join a workforce which embraces difference and welcomes everyone.

We aim to create and maintain a diverse workforce (including our Board and Executives) that better reflects the UK's economically active population. Therefore, we particularly welcome applications from Black, Asian and Minority Ethnic (BAME), disabled, female and LGBT+ candidates who are under-represented across our workforce.

We will consider flexible working patterns for all our vacancies, including job share, so please include clearly any information regarding your preferred working arrangements on your application.

### **Training & Development - Apprenticeship Opportunities**

There are also a broad range of meaningful, high quality apprenticeship opportunities available, to help further develop your skills and take your career to the next level.

### **Eligibility to apply and continuity of employment**

Employment agency workers and contractors are considered to be external candidates and should therefore only apply for positions that are being advertised externally. They are also not eligible to claim continuity of employment should they be successful in securing a position with the Environment Agency.

If you have been a member of a Regional Flood and Coastal Committee in the last 12 months we will not be able to continue with your application based on agreed appointment rules related to employing ex-RFCC members. We would welcome an application from you once the 12 month period have passed.

For applicants who currently work in local government or other bodies listed in the Redundancy Payments (Continuity of Employment in Local Government etc.) (Modification) Order 1999, you may be eligible for continuous service for the purpose of calculating any future redundancy payment. In addition, if you can demonstrate that you have worked at the Environment Agency immediately before joining the Civil Service and are now being re-employed by the Environment Agency within a period of three years of leaving, you may also count your Civil Service employment for the purpose of calculating your service related entitlements as outlined above. If you are unsure of your status then you should contact your own HR Team.

## 4. Further Information

### Pre-employment Checks

We apply the Baseline Personnel Security Standard (BPSS) check when recruiting staff to our posts. This includes a basic criminal records check.

For the great majority of roles in the Environment Agency this will be sufficient and only certain roles will require a higher level of clearance. Should this be necessary, you will be advised of this during the recruitment process.

Positions based at our London office or roles that require frequent travel to London require CTC level security clearance. This will be confirmed to you during the recruitment process.

### Want to find out more?

To find out more about what it's like to work at the Environment Agency, please visit: <https://www.gov.uk/government/organisations/environment-agency/about/recruitment>

## 5. How to apply

We use an online recruitment system. To make the application process simple and straightforward, and so that you know how it works and what we need from you, we've put together a few hints and tips. Make sure you have all the information you need about the vacancy. For some jobs, you'll be asked to download a candidate pack, like this one, where you'll find specific application instructions.

The first thing you need to do is sign up to our recruitment system. You will need a valid e-mail address to log in and apply for opportunities, as all communication from us will be via e-mail. You can do this via the vacancy you are interested in by selecting '**Apply**' at the bottom of the advert.

Once you've clicked this link you'll then be asked:

- Do you have the right to live and work in the UK?
- Do you have the required qualifications or equivalent experience, which were stated in the job advert?
- Are you currently an employee of this organisation?

Simply answer yes or no and you can carry on with your application. You'll then see the '**Register**' page. Simply complete the details and select '**Submit Registration**' and register to the system. You only need to sign up to the system once; you'll just be able to login next time.

When it comes to the actual application, you need to fill out each section, please be aware that the system will automatically time out if you are inactive for more than 60 minutes. This will result in any unsaved information being lost so make sure you save what you are doing regularly. Once you've finished, your details and information will be saved on the system for any future applications – of course, you can edit your details at any point.

## 5. How to apply continued

When you apply to the Environment Agency for a job we will ask you to provide your personal data on our application form. We need this information so that we can establish your identity and your right to work in the UK.

You can read our Data Protection Statement on the application process page of our recruitment system. It is also available for reference on each page of the actual application.

### **CV/Statement**

We're keen to know what makes you right for the job you're applying for and why we should ask you in for an interview. You should demonstrate how your skills, qualities and experience meet the requirements of the job (as described in the job advert and candidate pack). And instead of simply telling us, show us: use real life examples of where you've used a certain skill or how you've practically applied your experience.

It's a really important part of the selection process so make sure you keep your statements relevant and concise. Think about what we need to know about you and what you'd bring to the role and our organisation.

### **Application questions**

For some roles, we'll ask you some specific questions, like if you have a preferred work location. If you're disabled and you'd like to be part of our Guaranteed Interview Scheme, you can add this information in here.

## 5. How to apply continued

### Equality and Diversity

We're committed to reflecting the communities we serve and we'd like you to tell us about yourself and your background.

### Submitting your application

Once you've filled out and completed everything, you'll be prompted to submit your application. Simply click the button and you're done.

Please be aware that once you've submitted your application, with the exception of the 'Personal Details' section you will not be able to edit your application further. If you decide to withdraw your application, you will not be able to submit another application for the same vacancy.

If, at any stage, you have questions or problems, please contact the recruitment team on 0845 241 5350 or email [ea\\_recruitment@gov.sscl.com](mailto:ea_recruitment@gov.sscl.com)

### Setting up 'job alerts'

If you have been unsuccessful with your application you can set up email alerts for future vacancies. You will automatically receive an email when a job that matches your criteria becomes available. To do this simply click on '**create a new job alert**', enter your job criteria and save.
