Job Family Role Profile: Environment & Regulation, Grade 3

- *This is a generic role profile. It aims to outline the requirements of roles broadly within the job family and grade detailed above rather than provide the requirements of a specific job*
- *This profile should be used as a template to help 'frame' the right size and shape of work undertaken locally*
- *For further guidance on how to use job family role profiles effectively, please see the Easinet*

Job Family Description

These are roles engaged in the delivery of operational and regulatory services that are key to the protection and improvement of our water, land and air.

This job family hosts a variety of skills and activities, such as monitoring enforcement through to licensing and permitting. Roles can be field based, gathering data or 'auditing' customers, or office based carrying out analysis or providing advice on environmental issues to customers.

Purpose Statement

The contribution and key purpose of roles in this job family at this grade. It indicates the typical degree of independence these roles hold. Note: names of roles are intended to illustrate the type of roles at this grade and are not related to job title.

Acts as part of a team delivering operational and / or regulatory activities and support to ensure achievement of environmental outcomes.

Roles can be field or office based and cover a range of activities from carrying out enforcement and field monitoring tasks through to dealing with customers, and providing analysis.

Roles will interact with internal and external customers.

Some roles in this job family participate in incident response as part of their accountability.

These roles work to standardised procedures and are required to plan and organise their own work to achieve short term results.

Representative Accountabilities

The key areas of work and responsibilities for these roles. Points identify typical areas of outputs and suggest anticipated results but are not exhaustive or specific.

- Provides accurate and timely support for operational and/ or regulatory decisions, by carrying out routine interpretation of data and, where required, preparing basic reports. In some cases, providing a first level regulatory responses on behalf of the team.
