## Job Family Role Profile: Asset Management, Grade 5

- x *This is a generic role profile. It aims to outline the requirements of roles broadly within the job family and grade detailed above rather than provide the requirements of a specific job*
- x *This profile should be used as a template to help 'frame' the right size and shape of work undertaken locally x For further guidance on how to use job family role profiles effectively, please see the Easinet*

### Job Family Description

Roles in this family manage the whole lifecycle of our flood and coastal risk management assets, i.e. from planning and delivery, through to upkeep and eventual decommissioning.

There are a wide range of skills in this job family but they are identified by their contribution to the asset management life cycle. Roles here can be field based, for example in building or maintenance of structures and plant, or office based such as planning and managing the delivery of assets and the preparation or the analysis required to carry out asset management effectively.

### Purpose Statement

**The contribution and key purpose of roles in this job family at this grade. It indicates the typical degree of independence these roles hold. Note: names of roles are intended to illustrate the type of roles at this grade and are not related to job title.**

Acts as specialist or team leader. Role accountabilities can be interchangeable depending on the team and work being delivered but the overarching theme of all roles is leadership and assurance of our asset management services.

Specialist roles contribute to delivery of environmental objectives by acting as the technical advisor within specific area of expertise. Team leader roles contribute through the management of a team to deliver on the specific aspects of the asset management whole lifecycle.

Roles may be responsible for directing project resources in a matrix structure working across the organisation or wider.

Works within a broad framework and outputs are subject to review.

### Representative Accountabilities

**The key areas of work and responsibilities for these roles. Points identify typical areas of outputs and suggest anticipated results but are not exhaustive or specific.**

#### Specialists:

- x Provide expertise to support delivery of outcomes from our assets. This may involve advising teams and external partners in the execution of asset management activity, developing and implementing policy & processes.

| Grade : 5       | Profile reference:AM05          |
| Doc Version: V1 | Date latest version: 22/05/2017 |

- x Produce and / or review documentation such as technical designs, risk assessments, reports or instructions to support management decisions and ways of working.

#### **Team leaders:**

- x Responsible for a team, providing leadership, direction and prioritising team activities in delivery to achieve specific asset management activities.
- x Recruit, motivate and develop team members to ensure effective delivery of asset management activities. Ensures appropriate skill levels are developed and maintained and team performance is optimised in line with business objectives

#### **All roles:**

- x Plan and manage progress of work in line with defined plans. Identify risks to the delivery of priorities, making appropriate action to resolve issues. Some roles manage internal and / or external resources.
- x Develop and maintain relationships, internally and externally to minimise the risks associated with our assets. In some cases, may be required to represent the Environment Agency at local government and public meetings, or similar. Roles may be required to work with colleagues across the Defra group to ensure services are delivered in the best way possible.
- x May lead projects, usually to bring about effective change or improve business support services. May contribute to larger more complex projects.

## **Typical skills, knowledge and experience**

**The knowledge, skills and experience indicated usually reflect the minimum levels required for competent performance in the role. Due to the generic nature of job family profiles, detailed requirements need to be specified in supporting documentation, such as the advert.**

- x Roles require proven experience, usually gained within a relevant field. Depending on the role, this could be specific technical, engineering or other relevant specialised expertise / people management / project management.
- x Requires detailed understanding of relevant business practices and procedures to enable management of, or planning for, delivery across multidisciplinary teams.
- x Needs to understand management of budgets, revenue and / or capital expenditure.
- x Roles typically require a relevant degree or equivalent experience x Roles at this grade in this job family may require professional qualifications or Chartered status.
- x For some roles specialised and /or professional qualifications are mandatory.
